

Take Off My Mask

hazydecay

one shot is not enough to make me stop from touching you - you
gotta pull the trigger for oh so many times - i need you - i ne
ed to

live - our life is one big storm and i like it - i need you to
feel the

thornz of suffering for this all is necessary

bridge:

walk around me ironic smile - leave me all the way passing by

chorus:

one shot at me - i can't believe you did it again - take off yo
ur

mask

what's this? me in the corner of a room i've seen somewhere and
you coming close indifferent face ready to kill the dayz - i ne
ed

you i need to live our life is one big storm and i like it - yo
u got to

make the holez in my soul oh wide open

bridge:

walk around me ironic smile - leave me all the way passing by

chorus:

one shot at me - i can't believe you did it again - take off yo
ur

mask

WHAT'S THIS?!?
