What is this nothing going right, only bad things one fucking day...all is crashed, my heart is broke, my dirty house is all alone

What I'm gonna do I need to run away, everything is wrong nothing gone I sway...my house is fucking dirty place I thought I will be run away

Ref:

I complain

I have no money I have only fear, it is here staying near... my house is full of rats and roach, I'm gonna run and run and run alone

My girl left me because of it, she said " I need to breathe" fuck off... she left me fast, she left me there, what I'm gonna do I say

Ref:

I complain

All is bad I scream, all I see and hear... I'm gonna buy a gun right now, sun will shine on me

My dirty body, I shot it off, secrets all I had inside me for all

Give me my love, give me my love, I'm dirty homeless, set it off

I'm handsome, dirty loving man, I need you to stay with me, I lay

Ref:

I complain

All is bad I scream, all I see and hear

I'm gonna buy a gun right now, sun will shine on me
