

Hate You

Hc3

I feel big problem , It's you I hate...You're just little bastard
, leave me alone I pray
I feel big frustration, I know it's you I hate...You're fucking l
ittle bastard, leave me alone I sway
You are different, why, I'm so sad to see you...go away from me,
I'm so sick of you
My head is burning, my eye needs a break...I'm glad that you are
dying, leave me I pray
You're one fucking bastard, I wish you to die, I'm so sick of b
eeing here, I'm so unhappy now

Ref:

I need a place to hide, am I ready? I don't know how
I tell you I never die, am I ready? I don't know how
I'm sad and I cry, what I have to say...I'm sad and I cry maybe i
will be surprised
I'm sick you're here, I'm glad of your fear
Leave me alone, I'm rising, leave me alone, you're liar
Fuck, die, fuck
I'm sad and I cry, what I have to say...I'm sad and I cry, maybe
I will be surprised
I'm sad and I cry, what I have to say, I need to be free and al
l alone
