

If

Hc3

If you feel me on your face, you can stop and taste it all
If you feel me on my place, you can stop and check it all
You're so fast make me sure that you want to see what's in my head
If you feel me on your face, you can stop and taste it all
If you feel me on my place, you can stop and check it all
You're so much make me sure that you want to feel that I'm angel
