

Never Ever

Hc3

Just hanging around the street, searching for myself
I'm creeping through the blue of those times

Who's feeling down like me? Empty people
Don't know which way to go, but I take care of them yeah

Ref: Never ever give it up, never ever be afraid
Never ever quit the race, until you look into my eyes

Who's killing my heart, when it's not me
Who's stealing life's scheme, need escape into the blue

Uncertain voice leading my heart, I know which way to go
And I take care of you yeah

Ref: Never ever give it up, never ever be afraid
Never ever quit the race, until you look into my eyes

Be cool, be free, don't be afraid
