

## Never Ever

Hc3

Just hanging around the street, searching for myself  
I'm creeping through the blue of those times

Who's feeling down like me? Empty people  
Don't know which way to go, but I take care of them yeah

Ref: Never ever give it up, never ever be afraid  
Never ever quit the race, until you look into my eyes

Who's killing my heart, when it's not me  
Who's stealing life's scheme, need escape into the blue

Uncertain voice leading my heart, I know which way to go  
And I take care of you yeah

Ref: Never ever give it up, never ever be afraid  
Never ever quit the race, until you look into my eyes

Be cool, be free, don't be afraid
