Never Ever

Just hanging around the street, searching for myself
I´m creeping throught the blue of those times

Who´s feeling down like me? Empty people
Don´t know which way to go, but I take care of them yeah

Ref: Never ever give it up, never ever be afraid
    Never ever quit the race, until you look into my eyes

Who´s killing my heart, when it´s not me
Who´s stealing life´s scheme , need escape into the blue

Uncertain voice leading my heart, I know which way to go
And I take care of you yeah

Ref: Never ever give it up, never ever be afraid
    Never ever quit the race, until you look into my eyes

Be cool, be free, don´t be afraid
