

Oh My God

Hc3

We used to be friends for long time
Happy moments, we were fine
Climbing up the highest mountain

Then one day I saw her face
My heart goes boom, no disgrace

I'm going down so fast, you check myself, and let me know

Ref: Oh my God, what I've done
Step aside I'm dangerous
Cover the line you sissy boy
I wanna kill you sissy boy

My second date, the sunny day
Me, her and suddenly, suddenly who is appearing

That is you and she is near, she looks at you
I can't believe, you take her away

I'm going down so fast, you check myself, and let me know

Ref: Oh my God, what I've done
Step aside I'm dangerous
Cover the line you sissy boy
I wanna kill you sissy boy

Everything is turning upside down, one day you love
You are completely happy, here comes the other day
And only shame is on the way, I don't know why?
