

Breathe Without

He Is We

La da da dum dum dum

La da da dum

What do you know, I went and got myself all in a mess

Get a little invest, you're not gonna mess it up this time

Here we go, yes it's now or never, us together

I'm feeling a little bit crazy, I'm thinking that maybe

I could blow your mind

If that's alright

I'd love to take you away from here

Hold on and magically disappear

It's all a rush from the inside out

A feeling I couldn't breathe without

Who would've known that I could ever feel this way

You're miles away, but lets just say "I'm with you today"

Where you are, oh me oh my, so very far

So grab your guitar and jump in my car

Alone and away, yeah

That's okay-ay-ay-ay-ay-yeay

I'd love to take you away from here

Hold on and magically disappear

It's all a rush from the inside out

A feeling I couldn't breathe without

Take all of me, hold on tight

This time, I swear that we'll do it right

It's all a rush from the inside out

A feeling I couldn't breathe without

I'd love to take you away from here

Hold on and magically disappear

It's all a rush from the inside out

A feeling I couldn't breathe without

I'd love to take you away from here

(Ohhh, I couldn't breathe without)

Hold on and magically disappear

It's all a rush from the inside out

(Ohhh, woah, I couldn't breathe without)

A feeling I couldn't breathe without

Take all of me, hold on tight

(Ohhh, I couldn't breathe without)

This time, I swear that we'll do it right

It's all a rush from the inside out

(Ohhh, woah, I couldn't breathe without)

A feeling I couldn't breathe without

Ohhh, I couldn't breathe without

Ohhh, woah, I couldn't breathe without

Ohhh, I couldn't breathe without

Ohhh, woah, I couldn't
