

Lead The Fight On (Acoustic)

He Is We

You know every part of me
I know every part of you
Tell me a story with an ending that makes me smile
Tell me you'll stand by me longer than just awhile
Your fight is what I'm believing for
My fight is hand in hand with yours
Just a couple of kids who found a voice, who found a choice

We are, we're the ones with the scars and the stripes
Been here forever too our battle is worth the fight
Not the little kids you knew before
We are, broken hearts with the motive to move the world
Doesn't matter your past, all my boys and girls
With the stories tell tied in our hands
Lead the fight on

Our lives may not be the same
Ourselves found in a single name
A name of hope for those who've lost their way
Just a glance at the moment they'll be okay
Your past makes you so strong
My past shows what I've done wrong
Gotta rise from the ashes and paint this town
Let's paint this town

We are, we're the ones with the scars and the stripes
Been here forever too our battle is worth the fight
Not the little kids you knew before
We are, broken hearts with the motive to move the world
Doesn't matter your past, all my boys and girls
With the stories tell tied in our hands
Lead the fight on

I'm fire, I'm pain
Been through hell, been through rain
I'm tired, I'm shamed
Can't stop me anyway
I'm driven, regardless
I'm lifting the heavenless
My hands are, in yours now
Let's change this world somehow

We're the ones with the scars and the stripes forever and ever

We are, we're the ones with the scars and the stripes
Been here forever too our battle is worth the fight
Not the little kids you knew before
We are, broken hearts with the motive to move the world
Doesn't matter your past, all my boys and girls
With the stories tell tied in our hands
Lead the fight on
