

Secrets (Hush)

He Is We

You tell me one thing
Then I turn my back
I hear you whispering (lies [x3])
"Let's just shot her up now"
Isn't that what you said boy?

You run your mouth
throwing words all over the place
Be a man now
Say it to my face

I hear you got a secret
(Hush) But can you keep it
I hear you've got some regrets
(Hush) But we're not speaking
You know that secrets don't make friends
Don't you pretend
I hear you got a secret
But secrets don't make friends

You pride yourself on love and harmony
You never loved me honestly
(lies [x3]) You said I was like a sister
Family with a perfect picture

You run your mouth
throwing words all over the place
Be a man now
Say it to my face

I hear you got a secret
(Hush) But can you keep it
I hear you've got some regrets
(Hush) But we're not speaking
You know that secrets don't make friends
Don't you pretend
I hear you got a secret
But secrets don't make friends

Don't lead me on
And call me a friend
Cross your heart, hope to die
We, you left me for dead
Do you sleep at night?
Far away from home
I really need you
But here I am all alone
All alone, yeah...

I hear you got a secret
(Hush) But can you keep it
I hear you've got some regrets
(Hush) But we're not speaking
You know that secrets don't make friends
Don't you pretend

I hear you got a secret
But secrets don't make friends
