Cannibal Girl

Head Automatica

She told me all the things she knew
You give her one she'd reach for two
The cold four on the sofa is getting closer
And she's the hardest thing to do
When the mantis in her preys on you
An appetite fit for a king in a love

I dont wanna bore you, but here I go again Cannibal Girl
You've been eating me alive
I dont wanna bore you, but here I go again Cannibal Girl

So lately I've been meaning to
Say a few things to you
She gets all the good attention
And I get honored with the mention
And shes the hardest thing to do
When the mantis in her preys on you
An appetite fit for the kids you love

I dont wanna bore you, but here I go again Cannibal girl
You've been eating me alive
I dont wanna bore you, but here I go again
Cannibal girl

And that's what hearts are for You give her one she breaks more Its the changing of the guard And now the last one to know When it's all just for show And Im trying to be so hard

I dont wanna bore you, but here I go again Cannibal girl
You've been eating me alive
I dont wanna bore you, but here I go again
Cannibal girl
You've been eating me alive

I dont wanna bore you here I go again Cannibal girl You've been eating me alive I dont wanna bore you here I go again Cannibal girl
