

Egyptian Musk

Head Automatica

There's a suicidal taliban for talent on the cusp
Egyptian musk
Egyptian musk
When the village came with fire, you were hiding on the right
I knew you might
The blood of christ
I tell you lies, I have found
I've heard a million
Seen religion on the ground
There's a suicidal taliban for talent on the cusp
Egyptian musk
Egyptian musk

Is that your love down on the ground?
I see forever coming down
Look around
It makes everything okay

So celebrate the ignorance
And drizzle it in violence
And pledge a sore allegiance with every auto and appliance
Because they win if we don't go about life like we should
I knew you would
They knew you would
I tell you, lies I have found
I've seen a million religions on the ground
There's a suicidal taliban for talent on the cusp
Egyptian musk
Egyptian musk

Is that your love down on the ground?
I see forever coming down
Look around
It makes everything okay

Where does your high school stand?

Lies, I've seen a few
I've seen a million in a nation in a feud
So if happiness is knowing, then knowledge I have not
We knew you'd pop
Your head went pop
