

# Graduation Day

Head Automatica

Smudged funnies in a broken bottle  
On the dot at nine  
So daddy throws clothes, throws on an old stove  
I'm cryin' in the corner at five

Well, I've seen black and I've seen blue  
But fine lines I don't see  
And just because I am in misery  
Don't it mean a thing

That I wanna know  
That I wanna know

Graduation Day  
Graduation Day  
We take back everything  
We said about you

September, as far as she remembers  
They don't teach humility  
And just because her only signal is mayday  
Don't it mean a thing

That she's seen love and she's seen war  
But fairness she don't see  
And just because she is in misery  
Don't it mean a thing

That she wants to know  
That she wants to know

Graduation Day  
Graduation Day  
We take back everything  
We said about you

(Graduation Day)  
Graduation Day  
Graduation Day  
We take back everything  
We said too

The camaraderie's old, doing what I'm told  
And everybody knows this is getting out of hand  
Everybody is dying for, the chance to be heard not ignored  
And everybody knows this is getting out of hand

Graduation Day  
Graduation Day  
We take back everything  
We said about you

Graduation Day  
Graduation Day  
We take back everything  
We said too

(Graduation Day)

I'm not gonna, I'm not gonna

I ain't goin' to school

(Graduation Day)

I'm not gonna, I'm not gonna

I'm not goin' to school
