

Keep A Secret

Head East

If wishes came true, I wish you knew
The way that I'm thinkin' of you
I see you now and again
You call me your friend but I love you

It seems unfair
That we can't share
The things I feel tonight

I wish that we had a secret just between me and you
I hope that you can keep a secret
Anything I have to do
To make a secret happen with you
Wish that we could keep a secret
I wanna to keep a secret with you

I wish I knew the right way
To show how I feel about you
You don't want to say, no
But still every time you say that you got to

Give me the chance
To make you see
I want you for me

I wish that we had a secret just between me and you
I hope that you can keep a secret
Anything I have to do
To make a secret happen with you
Wish that we could keep a secret
I wanna to keep a secret with you
