

# Open Up The Door

Head East

We started out a long time ago  
We didn't know what to do  
Knockin' our romances, we took the chances  
That a lot of us do  
Well, we've seen strange places  
We fell on our faces  
It was all on the line  
Cause we believed in what we were  
And we know that we would see it in time

A reason to carry on  
Is the feelin' when the music's done  
Maybe we'll take someone's whole life  
(And) turn their head around  
Open up the door

Listen to me you've got to help me  
I can't help myself  
It's been a long long time  
Wish it were mine  
I can't help myself  
I've been searchin' everywhere  
Lookin' here and there  
And I finally see  
It may take forever and it never  
But will you listen to me

A reason to carry on  
Is the feelin' when the music's done  
Maybe we'll take someone's whole life  
(And) turn their head around  
It's a reason to carry on, it's a reason to carry  
Open up the door

A reason to carry on  
Is the feelin' when the music's done  
Maybe we'll take someone's whole life  
And turn their head around  
Open up the door oh oh  
A reason to carry on  
Is a feelin' when the music's done  
Maybe we'll take someone's whole life  
Turn their head around  
It's a reason to carry on  
It's a reason to carry on  
Open up the door
