

Take A Hand

Head East

Take a hand, take a hand
You've got to let it show
Take a hand, take a hand
You've got to let her know

Take a hand, take a hand
You've got to let it show
Take a hand, take a hand
You've got to let her know

Oh, turn on your radio
And put your ear to the sweet, sweet music
And take your baby
And hold her in your arms and let the music go

And if you're feeling like it
Go grab your lover and really rock her
Pull her over and hold her tighter
Hold her tighter, that's what she needs

You've got to
Take a hand, take a hand
You've got to let it show
Take a hand, take a hand
You've got to let her know

Turn on the music
And listen to the radio
And grab your baby
And hold her in your arms and let the record go

And if you're feeling like it
Go grab your lover and really rock her
And pull her over and hold her tighter
Hold her tighter, that's what she needs

You've got to
Take a hand, take a hand
You've got to let it show
Take a hand, take a hand
You've got to let her know

You've got to
Take a hand, take a hand
You've got to let it show
Take a hand, take a hand
You've got to let her know

Take a hand, take a hand
You've got to let it show
Take a hand, take a hand
You've got to let her know

Take a hand, take a hand
You've got to let it show
Take a hand, take a hand
You've got to let her know

Take a hand, take a hand
You've got to let it show
Take a hand, take a hand
You've got to let her know
