

It's the year 2012
Electronic dance music is on the edge of going extinct
Leaving thousands of desperate souls with emptiness and despair

This forces us to make the next step in evolution
And inject new life into the building blocks of our species
The time has come to revolutionize the key element of our creation

Hard Bass

Humanize
Sacrifice
Synergize
Eternalize

Deciphered the stones
We sign and we own
We go hard
Steps shot take it home
Let's get it
