

Just Say My Name

Headhunterz

Say whatever you want motherfucker
Just say my name

Everybody's got somebody who don't like them
But like I said before
They gonna get it from somewhere
So it might as well be from me

Some people do music as a hobby
But it's more than that to me
For me music is everything
I guess because I'm popular
That makes me a pop star
And I really don't care who dislikes me or why
The people that dislike me have nothing to lose
So they can act like a fool
Oh, I remember when he didn't have this
Or when he didn't have that
And he was like this
Fuck that, I eat that shit up
Say whatever you want motherfucker
Just say my name
That's all I need, because you know what?
I ain't going nowhere until I've done it all

Say whatever you want motherfucker
Just say my name
