

The Muzical Revolution

Headhunterz

I invite you to be the revolution

The musical revolution

I became the music

I became the dance

I became a part of the revolution (word!)

And together we became one

The musical revolution

I became a part of the revolution (word!)

And together we became one

So I now invite you, as I had once been welcomed

I invite you to be the revolution

The musical revolution

I became a part of the revolution (word!)

And together we became one

The musical revolution

The musical revolution
