

Hi-Ya!

Headlights

I said the world's on fire you can hardly believe it Because out your window, no you can't see a thing

I said the world's on fire, you can hardly believe it Because out your window, no you can't see a thing

oh oh

oh oh

No you, did you just wanna believe the truth is worth fire
Just wanna have a good time
Have a good time tonight

I said the world's on fire you can hardly believe it Because out your window no you can't see a thing
I said the world's on fire you can hardly believe it Because out your window no, you can't see a thing

I said come on, come on don't let that bring you down
I said if I were you I'd just turn around

No you you just wanna believe the truth is worth fire
Just wanna have a good time, have a good time Tonight
