

Signs Point To Yes (But Outlook Not So Good)

Headlights

All this time you felt all overgrown
stuck inside with those little minds
all alone
and no one came
winter refrain made you sing along
to windowpanes
and faster trains
and lonely songs
but im not the one who was wild
and im not the one who left town on that night
on that night

doctor said it was a poorly head
and kept you laying down
but its no so hard, getting out of bed
not like all those times you never said
she felt weighed down
she felt weighd down
but im not the one who was wild
and im not the one who left town on that night
on that night
