

Belovers Of Fidelity

Headstone Epitaph

We have electronic toys
and electrtronic pain
I hear a voice deep inside my brain
I hear you talkin' loud and clearly
"every step you're walking"
it said to me
but in the end
I wonder why
it's comin' back

We are belovers of fidelity
always forever on and on

I see a sign before my eyes
a sign that says: buy me
hear the awful cries
hear what will be
I see a sign that says: buy me

We are belovers of fidelity
always forever on and on
who knows if that is our fate maybe
our fate to overdo fidelity...?

Don't care
care about ambition
this is your aim
this is your mission
