

Searing Eyes

Headstone Epitaph

You sear with your eyes on my skin
I feel the pain allthough
I'm so afraid but
I still feed your flame

Searing eyes
searing eyes

Your touch on my skin
Like a burning laser blade
destroying deadly lips
praying it's not to late

Searing eyes
searing eyes
searing eyes

You're playing your role
with devotion so real
that I can't feel
your emotion
