

# Angel In My Heart

Hear'Say

Oh oh  
I heard a whisper that touched deep inside my soul  
Like some familiar melody  
A hidden chapter from a story left untold  
I gotta feeling, I could believe in

There is an angel in my heart  
Feels like I'm guided by a candle in the dark  
It's taken all this time  
To finally find out what I could never see  
You were there for me  
Now there is no doubt that there will always be  
An angel in my heart

You were the friend, you were the one I could confide in  
You gave me strength that I could never find  
Deep emotions that I've always been denyin'  
I believe in, it's so close now it's you that I'm feeling

There is an angel in my heart  
Feels like I'm guided by a candle in the dark  
It's taken all this time  
To finally find out what I could never see  
You were there for me  
Now there is no doubt that there will always be  
An angel in my heart

Finally found what I been searching for (all my life)  
It was right before my eyes

Oh, you are my one and only angel  
I know you'll always be there  
You are my one and only angel, Angel

To finally find at what I could never see  
You were there for me  
Now there is no doubt that there will always be  
An angel in my heart

An angel in my heart  
Feels like I'm guided by a candle in the dark  
It's taken all this time  
To finally find out what I could never see  
You were there for me  
Now there is no doubt that there will always be  
An angel in my heart
