

Not The Kind

Hear'Say

When I'm away from you
I think about the things you do
And every single day
I hope that love will stay this way
When I'm alone I just worry about you
It shouldn't matter if I'm with or without you

Everybody wants to have a boy like you
And there's not a single guy who doesn't look at you
You're so fine
You're so kind
Can't believe
That you're mine
Heaven sent me love like you

Well I'm not the kind of girl who will play around
Well I'm not the kind of guy who will let you down
So you're not that kind of guy
So you're not that kind of girl

We're good when we're together
But it's hard when we're apart

I'm not the jealous kind
But you've been playing with my mind
In every single way
I think about you every day
When I'm alone I just worry about you
You say you love me boy so why should I doubt you

Listen to your heart
There's no mistaking
Listen to your heart
You'll find the truth
Listen to your heart
When life is breaking

Every single answer
Is right there inside of you

Well I'm not that kind of girl
Well I'm not that kind of guy
So you're not that kind of guy
So you're not that kind of girl
