

## Beautiful Broken

Heart

She's a big star  
And she's burning bright  
Losing her religion each and every night  
She's the real thing  
And she'll tell you so  
And lots of other things you don't want to know  
(Oh! Oh! Oh!)

Such a drama queen  
A hot mess  
Underneath her temper, underneath her dress  
Like a raw flame  
She got a secret mind  
Getting your attention each and every time

Beautiful broken  
Beautiful broken

Such a naughty girl  
Threw her body down  
Screaming for her daddy but he's not around  
Absolution  
Just a shot away  
She don't know she gotta pay to play

Beautiful broken  
Beautiful broken.
