

Nada One

Heart

Fire eye flashin' bright
Come again into my dream tonight
Don't fade away when the mornin' comes

Fadin' in the sun
Nada one, nada one

Moon shone silver in your eye
Shown on my midnight blues from the sky
Paint the night with love till the burnin' sun

Can you see the colors run?
Nada one, nada one

Mornin' come down on me
Wanderin' through the endless street
Nobody seein' where I've been
Nobody feels what I've done
Nada one

Look inside I find
Your song flows around my mind
You are as real as I feel
You are the moon in my sun
Nada one, nada one

Fadin' in the sun
Nada one, nada one
Nada one
Nada one
