Step into the light
Your on
Hook into the night
That look from eye to eye
A flash gets passed around
A band of wild angels
Rockin heaven down

Roll, roll, roll
Roll out the soul
You get that feel
And everybody knows
You're moving their minds
Moving their minds around
Rockin heaven
Rockin heaven down

You step into the night
On your way back home
What a scene it was tonight
I'm so glad I'm not alone

That look in your eye Makes me come unwound Come on baby let's go Rockin heaven down

Roll, roll, roll Roll out the soul You get that feel and everybody knows

You're moving their minds Moving around Rockin heaven down Rockin heaven down

Rock me home Rock me home
