

The Night

Heart

Deep in the darkness slumber
Endless sleep
Nothing moves inside my funeral suite
I feel the sun slip down as hunger strikes
Waking like being born
Here comes the night

All my senses awakened
By little demons
Taste the human heartbeat
Bittersweet
Bittersweet

Don't take long
To get back in the groove
Sharpen up you attitude
Get down with the moves
Don't look no stranger
In the eye
Walk across some trouble baby
Just walk on by

No tomorrow - take it right now
In the night I walk alone
In the night is where I belong
Take my flesh - I'll give you my soul
Hungry night keeps driving me on

Neon concrete jungle
Devour the weak the humble
Hear the city nocturne
Makes you burn

Oh, slip on into darkness
Sharpen up your awareness
Get your seven senses working tonight

No tomorrow - take it right now

In the night I walk alone
In the night - that's where I belong
Take my flesh - I'll give you my soul
Hungry night keeps driving me on

No tomorrow - take it right now

In the night I walk alone
In the night - that's where I belong
Take my flesh - I'll give you my soul
Hungry night keeps driving me on

In the night I walk alone
In the night - that's where I belong
Take my flesh - I'll give you my soul
Hungry night keeps driving me on

On and on
