

# The Perfect Goodbye

Heart

Do you see me - do I see you  
And all the footprints we left in this room  
A smile in the hall - framed on the wall  
Do we way words that rise and fall like the circles of blue

Shoes on the floor - they're intertwined  
Just like the touch we left behind  
Walk through the door and say no more  
Say no more easy alibis to put out the fire

[Chorus:]

It's the perfect goodbye  
No time no tell - as from your lips the words that never fell  
It's a simple fairwell  
No fight no flight - no live no die  
No me no cry cry cry cry  
No me no cry

Hang up the phone - I should have known  
Better alone that killing time with fake valentines

[Chorus]

I'll see you sometime - once in awhile  
No partners in crime - just a face in the file

[Chorus]
