

# You

## Heartland

An old guitar with brand new strings  
Your favorite faded pair of jeans  
That first apartment away from home  
A newborn sleeping all night long  
Seeing him with no bad news  
Stevie Ray playing the blues  
Robert Duvall in any role  
John 3:16 to a troubled soul

Yeah, there's a few ways you could define perfect  
But if I only had one word it would be you  
You, in every way and everything you do

The latest perfume on your neck  
One candle and your silhouette  
The first time I saw you standing there  
The answer to my deepest prayer  
Giving all your trust to me  
The sweetest ability  
With all my heart I promise this  
For all my life I'm gonna be here in love with you  
You, in every way and everything you do

You kill me, you fulfill me  
More than I dreamed of  
Baby, I love you  
You, in every way and everything you do  
Yeah, I love you  
You, you
