

You

Heartland

An old guitar with brand new strings
Your favorite faded pair of jeans
That first apartment away from home
A newborn sleeping all night long
Seeing him with no bad news
Stevie Ray playing the blues
Robert Duvall in any role
John 3:16 to a troubled soul

Yeah, there's a few ways you could define perfect
But if I only had one word it would be you
You, in every way and everything you do

The latest perfume on your neck
One candle and your silhouette
The first time I saw you standing there
The answer to my deepest prayer
Giving all your trust to me
The sweetest ability
With all my heart I promise this
For all my life I'm gonna be here in love with you
You, in every way and everything you do

You kill me, you fulfill me
More than I dreamed of
Baby, I love you
You, in every way and everything you do
Yeah, I love you
You, you
