

Low Low Low

Heartless Bastards

Well I left my home and "startin" to roll
"a new beginning here out on my own"
"I'm feeling the sun so warm on my skin"
things are "turning around again"

before a long time I've been on "the mend"
and I don't need no woman to sing
I'm "filled up with cold" my future is bright
and give me some sunshine give me "sunshine"

"Coming round the bend, coming round the bend"
I've waited so long, waiting so long
I'm getting used to feeling alone
I'm getting used to out on my own
before a long while
I thought I would pray
but "now I know that it just takes a while"

I'm [?] low low low, low low low,
low low low low low low
low low low low low low...

and I open my "arms out, open wide"
and I swallow my fears I can not hide
and it's been such a long long time
and it's been such a long time
down round, round the bend

I'm [?] low low low, low low low,
low low low low low low
low low low low low low...

I, I left my home and started to roll
I knew the beginning here out on my own
