

Witchy Poo

Heartless Bastards

Hold on to what you know

Oh I don't want to stay uptown
I been there for a while and I want to come back down
Calm my fire
Calm my fire
down down down

I got on my knees I got on my knees and prayed
Lord won't you help me, help me find my way
Calm my fire
Calm my fire
down down down

Hold on to what you know

I went to the water saw my reflection in the surface
I went to the water to wash my sins away
my soul is up to no good, all these poisons I'm ingesting
Lord won't you help me, help me find my way
Calm my fire
Calm my fire
down down down

I went to the hollows, sat beneath the pale moonlight
I went to the hollows, sang the night away
Singing songs of trouble on this stormy path I follow
Lord won't you help me, help me find my way

Hold on to what you know
