No Mercy

Heathen Foray

Fight fight fight find them
Fight fight fight hunt them
Fight fight fight kill them
Fight fight fight show no mercy!

Kill kill kill the enemy
Kill kill kill all of them
Kill kill kill everyone
Kill kill kill show no mercy!

That's an command!
You would do well to obey!

I gathered you my soldiers
Because I know you are elite
Find for me the cowards who did this to us
Let them pay for their deeds, bring me their skulls

You don't have to question my orders.
Don't even think about it.
All you have to do is kill!

My word is law!
Bring me their skulls!

If it would be the highest mountain
Or deepest see
Kill them for me
Bring me their skulls
Come over them like hungry wolfs
And kill them for me
Bring me their skulls

Show no mercy
Find for me the enemy
Kill their whole family
Show no mercy

That's their very own guilt
Like they craved for this pain
I tell you just one thing
They should have let me paint!
Let them taste the smell of gas!
Let them die like dirty rats!
Let them taste the smell of gas!
Let them die like dirty rats!

He wanted to be
Master of all puppets
All he did was just
Bringing shame on his love

Don't dare to listen to lies of the weak!

In the end there is nothing left
Everything lies in ashes, in ruins
Revenge is the only thing left

Nothing more is there alive
He destroyed the shining past
Just to becalm his selfish thoughts
