## **Prisoners Of Fate**

There's got to be a solution There must be a cure Something to get me through this confusion What will it take to set me free? The time that's passed is full of frustration

So much to tell, but no words to say I've suffered enough and my dues are paid No turning back now I'm on my way

When I look back I see A time of misery At times it seemed that it would never end

Life is a gamble No matter how you play the game Roll the dice and take your chances Win or lose it doesn't matter 'Cause there's no escape When you're a prisoner of fate

Anything is possible But nothing is ever really sure Not always knowing what's wrong or right Your only choice is to decide I stand alone in the pouring rain I just had to say Capture the moment before it's gone You've got the strength to carry on

I was condemned to feel This pain that's so unreal The chains that bind me are behind me know

Life is a gamble No matter how you play the game Roll the dice and take your chances Win or lose it doesn't matter 'Cause there's no escape When you're a prisoner of fate

Once I was lost in the abyss No longer could I go on like this

Life is a gamble No matter how you play the game Roll the dice and take your chances Win or lose it doesn't matter 'Cause there's no escape When you're a prisoner of fate
