

Each Step

Heather Dale

Dry your eyes - it's no cause to weep
The weather is fine and the road isn't steep
The world is still round, my compass is true
Each step is a step back to you
Each step is a step back to you

Dry your eyes - each day you're alone
Is one fewer to wait 'til your lover comes home
The world is still round, my compass is true
Each step is a step back to you
Each step is a step back to you

Dry your eyes, and give me your hand
We'll see the same stars as I travel the land
The world is still round, my compass is true
Each step is a step back to you
Each step is a step back to you

Dry your eyes - it's no cause to weep
The weather is fine and the road isn't steep
The world is still round, my compass is true
Each step is a step back to you
Each step is a step back to you
