

# Everything

Heather Nova

See the lights go by  
Streets against the sky  
You've been by my side  
You've been on this ride  
All the times I've cried  
Hold the nights beside  
You have brought me round  
Yours are the only crown

Where are the secret scrolls  
Dark among the stones  
You have thrown the line  
Save me every time
