

# Heal

Heather Nova

Fall for me, my southern cross, my star  
Shine for me when love has gone too far  
I've got you belly-deep in me.

Just a little breath on the water is all we need  
Just a little strenght in our hearts -  
Enough to heal,  
Enough to heal.

Dig me out, can't leave this love for dead  
Hand to mouth we're picking up the thread  
I've got you belly-deep in me.

Just a little breath on the water now is all we need  
Just a little strenght in our hearts,  
Enough to heal,  
Enough to heal.

And the sea glistens,  
And the waves pull us in  
There's something rising up and up.

Just a little breath on the water now,  
Just a little strenght in our hearts,  
Enough to heal,  
Enough to heal.
