

Like Lovers Do

Heather Nova

There is a paradise that can be found
A better life to bring us round
And all we really need to do
Is see the world like lovers do

I want to take it easy, take it slow
To catch a fire and let it go
I want to give myself to you
So we can live like lovers do

Like lovers do, I want to feel that way
Like lovers do, they lose themselves for days
And I need to feel that way

I can hear you thinking what I feel
I know that what we've got is real
And all we need to get us through
Is just to live like lovers do

Like lovers do, I want to feel that way
Like lovers do, they lose themselves for days
And I need to feel, I need to feel that way
Give me strength to give myself to you
Like lovers, lovers do
