Like Lovers Do

Heather Nova

There is a paradise that can be found A better life to bring us round And all we really need to do Is see the world like lovers do

I want to take it easy, take it slow To catch a fire and let it go I want to give myself to you So we can live like lovers do

Like lovers do, I want to feel that way Like lovers do, they lose themselves for days And I need to feel that way

I can hear you thinking what I feel I know that what we've got is real And all we need to get us through Is just to live like lovers do

Like lovers do, I want to feel that way Like lovers do, they lose themselves for days And I need to feel, I need to feel that way Give me strength to give myself to you Like lovers, lovers do
