

# Maybe Tomorrow

Heather Nova

When you touch me, I feel lonely  
I don't know how to let you into me  
It's been coming now for a long time  
It's been coming now for a long time

Is there some way to reach my Hebrides  
Burn a light on the headland, lonely seas  
We've been rolling on for a long time  
We've been rolling on for a long time

Oh maybe tomorrow the sun will shine  
Oh maybe the wild rose will be all mine to give you  
Oh maybe soon

I've been out on the birdland, got no wings  
I've been calling the nighthawk, hope she sings  
It's been coming now for a long time  
It's been coming now for a long time

Oh maybe tomorrow the sun will shine  
Oh maybe the wild rose will be all mine to give you  
Oh maybe tomorrow the sun will shine  
Oh maybe the wild rose will be all mine to give you  
Oh maybe soon, oh maybe soon
