Let me put you in the play

Down all the days

Cast for your time

A sucker in the line

To be told you're so fine

You deserve the hire

Well, some folks cannot be satisfied

And they just want somebody to ride

(Well, here it comes) And you're the one they want

To have and have

And never have not

(Oh!) So take what you expect

And put it in reverse

See which one of us

Bangs the cymbals first

We're taking you to pieces You make it really easy You make it really easy

(Oh!) You're never going to touch me with your curse Get inside their minds, before they get to yours (2x)

Get lucky!
