

Dreamin' You

Heatwave

Girl you and I we're made for lovin'
I see the sign each time I hold you near
There's a joy in knowing all you searched for in your lifetime
Is right there by your side
Like an open door to paradise

And when you smile the world seems brighter
You put the sun inside the darkest day
Every night I know you're there to guide me into heaven
'Cause the heaven's in your eyes
Tellin' me that I've been hypnotized

You've got me dreamin' you
All day through
Ain't never got no time for feelin' blue
'Cause you're the world to me
Can't you see
No matter what I do
I'm always dreamin' you

Listen baby,
Don't ever say there's no tomorrow
'Cause love can keep us rollin' through the years
You can feel
The magic when we cuddle close together
It's that good old fashion spell
Baby you and I both know so well

You've got me dreamin' you
All day through
Ain't never got no time for feelin' blue
'Cause you're the world to me
Can't you see
No matter what I do
I'm always dreamin' you

Everyday and every night you make everything all right!
Stay forever in my life

Girl don't you know you've got me dreamin' you
All day through
Ain't never got no time for feelin' blue
'Cause you're the world to me
Can't you see
No matter what I do
I'm always dreamin' you
