

Let's All Make a Bomb

Heaven 17

And as the low aggress the high - All you can do is sit and cry
You've only got yourself to blame - Don't try to stop me it's too late
My mind's made up, this job won't wait - There's nothing left for
me to say

R: Hey! There's no need to debate - It's time to designate your fate
Take the M out of M.A.D. - Let's all make a bomb
Hey! There's no need to debate - It's time to designate your fate
Take the M out of M.A.D. - Let's all make a bomb

Take one hundred scientists or more - Place in a room and lock the door
Let them confer for half their lives - Unlock the door, go in and see
What they have made for you and me - A brand new toy to idolize

R:

Although the war has just begun - Ignore the sirens, let's have fun
Put on your best, go out in style - Although our future's looking black
We'll go down town and join the pack - Let's celebrate and vaporize
