

# We Blame Love

Heaven 17

It couldn't be clearer  
I'll apologise right now  
In spectacular language  
I think you'll understand somehow  
If I need to reach you  
We've got to walk a path where love's forgotten

(Love) Diamond skin and clear blue eyes that never see  
(Love) Every past needs broken time  
Remind me how it used to be  
(We blame Love) Heart is beating, mind is thinking  
Body's moving  
(We blame Love) Don't say another thing  
It's dangerous it's deadly just like...

The secret is out  
Beyond belief eternally  
Naked and recognised  
You see I'm just a boy who can't say...

(Love) Is the purest energy  
In my philosophy  
(Love) Every past needs broken time  
Remind me how it used to be

(We blame Love) Fascination, strange attraction  
Chain reaction  
(We blame Love) For we are wild for truth  
It's dangerous it's deadly just like...

It's just a clever trick  
I know, bewitching me  
But seeing you clouds my eyes  
And if it rains then let it rain on me

(Love) Diamond skin and clear blue eyes that never see  
(Love) Every past needs broken time  
Remind me how it used to be

(We blame Love) Heart is beating, mind is thinking  
Body's moving  
(We blame Love) I haven't seen your face today  
It's dangerous it's deadly just like...

(We blame Love) Fascination, strange attraction  
Chain reaction  
(We blame Love) For we are wild for truth  
It's dangerous it's deadly just like...

Love  
The saving of your life  
A million times a second  
The father of invention

Remind me how it used to be

(We blame Love) Fascination, strange attraction

Chain reaction  
(We blame Love) Oh let it rain on me  
It's dangerous it's deadly just like...

She's a real space slipper in an  
Atomic graveyard she's got  
Personal radar she is  
Face to face electronically with  
Me. I'm a living specimen  
A single wing of a broken bird cries  
Love  
We're safe here in the past  
Don't say another thing  
I can't just pretend  
The memory has left me  
Your cold hand warm against my skin  
A misinterpretation of tears  
A freaky kind of nature  
The world's gone mad - and I have
