Blue skies, once upon a dream All eyes never in between

Then into the garden came the spider
"I'm here for you," said the spider to the fly
And when I'm through, you can open up your eyes to see

Your world on fire, and the liar won't let go Atom and Evil

One more promise
We can tame the sun
And then we'll shine forever
Someday you can cry for everyone
We'll burn when you were clever

Oh!

Expand your mind, we've got a place for you

Just make believe that one and one are always two

When into the parlor comes the spider Just say NO! Atom and Evil

Falling's easy
Rising will never be
So we must rise together
Here are the changes
Powerful harmony
But then there's no forever
Atom and Evil

Maybe if we cry together
Maybe if we cry as one
The tears will fall to chill the fire
And keep everyone from
Atom and Evil

Atom and Evil Atom and Evil Atom and Evil!
