

# Lights Out In London

Heaven's Basement

Paint black, sunset, I left marks on this town so you won't for  
get  
Gypsy, vagabon, baby you're coming down but I heaven't yet  
Old shoes, old news, take a picture of the filth that I got to  
lose  
Cracked teeth, blitzkrieg, and I'm stuck underneath, say goodby  
e, c'est la vie

I'll be gone, when the lights go out in London  
Carry on, by the morning you'll forget  
All the wasted time I left behind a broken memory  
Yeah it all went wrong so when the lights go out in London I'll  
be gone

Salt lick, get your kicks, I'll kick the bucket before a walk b  
ack through this shit  
Black lung, black hole, motherfucker shut your mouth before I l  
ose control  
Hip shake, heartbreak, I'm sick of sleeping in the dirt with th  
e fucking dredgs  
Seeing red, I hit my head, tell the devil that I'm dead, won't  
you tell him what I said

I'll be gone, when the lights go out in London  
Carry on, by the morning you'll forget  
All the wasted time I left behind a broken memory  
Yeah it all went wrong so when the lights go out in London I'll  
be gone

'Cause I got this feeling  
Nothing to believe in  
I'm just crashing down  
And it's two in the morning  
You don't get no warning  
Ha, I'm leaving now

I'll be gone, when the lights go out in London  
Carry on, by the morning you'll forget  
I'll be gone, when the lights go out in London  
Carry on, by the morning you'll forget  
All the wasted time I left behind a broken memory  
Yeah it all went wrong so when the lights go out in London  
I'll be gone
