Can't Stop Rockin'

Heaven's Gate

We're standing here amazed and stare at a place we couldn't reach we're standing all together now and it's time we need a preach

In the last rays of the settin sun we kindle up the flame you're waiting for that night to run as we waited for that fame

Infected with that virus we can feel the fever grow this heat splits up your body and it's time to start the show

We're rising up like thunderstorm with power, heat and pain the heatstrokes of this metal gear are boiling up your veins

WE CAN'T STOP ROCKIN'
as we slip into the night
WE CAN'T STOP ROCKIN'
and we're standing side by side
WE CAN'T STOP ROCKIN'
got a kick from iron hell
WE CAN'T STOP ROCKIN'
and we're waiting for that yell

We're entering the stages at the bottom we feel safe this rock's residing in your heart from the cradle to the grave

Within this open fire the hammer's coming down and starting up that fireworks of feeling, light and sound

All the years we bore the load now we're ready to explode now we got the time to lead rock 'n' roll is what we need rock 'n' roll is what we need

Watch out!
listen to your heart and to your soul
Watch out!
listen there is time for rock 'n' roll
Come on and get it any time you need
we'll be there for you satisfaction guaranteed
